

Q5

Sportback

SUV redefined.

The new **Audi Q5 Sportback**

Each Drive is a statement

The Audi Q5 Sportback* combines the powerful performance of an SUV with high everyday usability. The wide exterior, flat sloping rear, which adds expression to the coupé-like roof line and intensifies the vehicle's aerodynamic appearance.

Impressively dynamic and confident charisma

S-line exterior, body in full paints finish, 20-inch alloy wheels adds yet more sporty accents.

Radiating unparalleled confidence

The Audi Q5 Sportback* equipped with striking air inlets and wide, flat Audi Singleframe with honeycomb look.

OLED rear lights with specific tail light signature

Dynamic light design are arranged into small, individually controllable segments with a 3-dimensional layout, creating new lighting scenarios.

Final equipment subject to specification sheet.

**Options for Audi Q5 Sportback 45 TFSI® quattro® S-line

Model	Q5 Sportback 45 TFSI® quattro® S-line
Engine type	In-line 4 cyl FSI petrol engine, turbocharged, mild hybrid technology
Displacement	1,984 cc
Max. output	265 ps / 5,250 - 6,500 rpm
Max. torque	370 Nm / 1,600 - 4,500 rpm
Power transmission	
Type of Drive	quattro® all - wheel drive with ultra technology
Transmission	7-speed S tronic
Weights / capacities	
Empty weight	1,850 kg
Perm. Total weight	2,430 kg
Permissible roof load limit / Support load	75 / 100 kg
Mileage	
Top Speed	240 km / h
Acceleration	0 - 100 km / h: 6.1 s
Consumption	
Fuel type	Super sulfur-free RON 95
Consumption and emission values according to NEDC	
Urban	9.1 - 9.2 L / 100 km
Extra - urban	6.3 - 6.6 L / 100 km
Combined	7.4 - 7.6 L / 100 km
Combined CO2 emissions	169 - 174 g / km
Emission class	Euro 6d - ISC-FCM

Explanatory note

- Empty vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current Regulation (EU) 1230/2012. Optional equipment may increase the car’s empty weight and drag coefficient, whereupon the possible payload and the top speed will b reduced accordingly.
- The specified fuel consumption and emission data have been determined according to the measurement procedure prescribed by law. Since 1 September, 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO 2 emissions. Starting on 1 September, 2018, the New European Driving Cycle (NEDC) will by replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO2 emission measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC.
- We recommended using super sulfur-free unleaded RON 95 fuel in complying with DIN EN 228. If this is not available, use regular sulfur-free unleaded RON 91 fuel complying with DIN EN 228, power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/ EC.
- We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types.
- Additional equipment and accessories (e. g. add-on parts, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

Q5 Sportback 45 TFSI® quattro® S-line

Dimensions in mm

Dimensions are for empty vehicle weight. Luggage capacity 510 / 1480 L (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height). Turning circle approx. 11.8 m.
1) Shoulder width. 2) Elbow width. 3) Maximum headroom.
