

Q7

**Taken to the next level:
new edition of the Audi Q7**

Versatile top-class SUV. The Audi Q7*.

Infotainment and driver assist systems technologies,
a compelling driving experience thanks to quattro
all-wheel drive and intelligent suspension solutions,
a powerful design and plenty of space for up to seven
people – that's the Audi Q7*.

The Audi Q7* is even more striking with the
S-line exterior: A blade in the front bumper,
sportily accentuated underbody protection
at the rear alongwith full paint finish.

Final equipment subject to specification sheet.
For detailed information, please contact sales hotline 2291 0000.
*Overseas model is indicated, specification and features may differ in Hong Kong.

At the rear, the two flat rear lights are connected by a continuous chrome strip.

Combined fuel consumption¹:
8.6 – 9.1 / 100 km
Combined CO₂ emissions¹:
196 – 208 g / km

Exuding power all along the line: the Audi Q7*

Moving dynamics

quattro all-wheel drive ensures sporty handling. With the Audi drive select dynamic handling system, you can actively influence the vehicle's characteristics, including adaptive air suspension that regulates the vehicle's height.

In the Audi Q7*, all-wheel steering allows the rear wheels to turn as much as five degrees in the opposite direction for easier manoeuvring and sportier handling. All engines come with Mild-Hybrid technology, which ensures efficient driving resulting in reduced consumption. Engines with Mild-Hybrid technology ensures efficient driving resulting in reduced consumption.

Functional and ready for every day

Make space for up to seven people with the third row of seats. Or if you want more storage space of up to 2,050 litres, just fold down the second and third rows of seats. Take advantage of practical options for loading and unloading your vehicle such sensor-controlled release of the luggage compartment lid, which allows you to operate the luggage compartment lid with a foot gesture should you have your hands full.

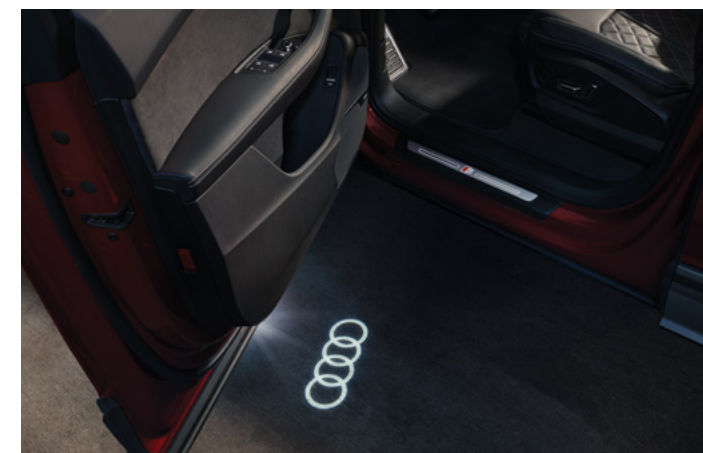

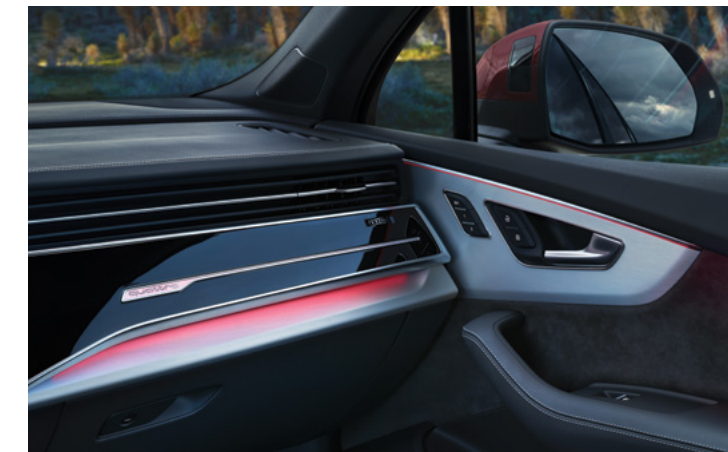

Whether with five or seven seats – the Audi Q7* combines immense prestige with practical everyday qualities.

Combined CO2 emissions	196 - 204 g / km	196 - 208 g / km
Emission class	Euro 6d-TEMP-EVAP-ISC	Euro 6d-TEMP-EVAP-ISC

Explanatory note

1. * Empty vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current Regulation (EU) 1230/2012. Optional equipment may increase the car’s empty weight and drag coefficient, whereupon the possible payload and the top speed will b reduced accordingly.
2. *** The specified fuel consumption and emission data have been determined according to the measurement procedure prescribed by law. Since 1 September, 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO 2 emissions. Starting on 1 September, 2018, the New European Driving Cycle (NEDC) will by replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO2 emission measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC.
3. ** We recommended using super sulfur-free unleaded RON 95 fuel in complying with DIN EN 228. If this is not available, use regular sulfur-free unleaded RON 91 fuel complying with DIN EN 228, power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/ EC.
4. We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types.
5. Additional equipment and accessories (e. g. add-on parts, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

Audi Q7

Dimensions in mm

Dimensions are for empty vehicle weight. Luggage capacity 740/ 2,050 l (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height). Turning circle approx. 11.5 - 12.5 m.

* Maximum headroom. ** Elbow room width. *** Shoulder room width. **** Vehicle height with roof aerial.
